Filtrete Air Purifiers from 3M
FACT SHEET

Description: Filtrete Air Purifiers from 3M are powerful air cleaning systems created for those who don't have a forced air system in the home or are simply looking to improve air quality in an indoor living space.

The air purifiers are effective at capturing microscopic allergens such as smoke, smog, household dust, pet dander, bacteria and particles that can carry viruses.

Model:	Sizes:	Product Benefits:	SRP:
Filtrete Ultra Clean Air Purifiers: Medium and Large room models	Medium: Best used for a room up to 160 square feet Large: Best used for a room up to 360 square feet	• Filter captures 99.9% of large airborne allergens[1] like pollen, mold spores and dust mite debris • Filter captures microscopic allergens like smoke, smog, household dust, pet dander and particles that can carry bacteria, viruses and odors • At least 25 percent more air circulation and 32 percent higher pollen capture rate than a HEPA purifier for a comparable room size • Filter life indicator senses particle accumulation on the filter, taking the guesswork out of knowing when to change the filter	$119.99 for the medium room model (FAP02) $199.99 for the large room model (FAP03)
Filtrete Ultra Quiet Air Purifiers: Small Room and Mini-Tower	Small: Best used for a room up to 110 square feet Mini-Tower: Best used for a room up to 100 square feet	• Quietest air purifiers available[2] • Filter captures microscopic allergens like smoke, smog, household dust, pet dander, bacteria and particles that can carry viruses and odors • FAP01 filter captures 99.9% of large airborne allergens like pollen, mold and dust mite debris • FAP01 includes a filter change timer • FAP00 filter captures 96% of large airborne allergens like pollen, mold and dust mite debris • Odor reducing carbon replacement filter available for FAP00	$99.99 for the small room model (FAP01) $59.99 for the mini-tower model (FAP00)

Availability: Filtrete air purifiers can be purchased online and at select retailers.
